## Education

---

### **BSC Biochemistry**, *Federal university of agriculture Abeokuta*

Currently studying Biochemistry with a growing passion for technology and software development. Alongside my core scientific coursework, I've developed strong skills in full-stack web development using the MERN stack (MongoDB, Express.js, React, Node.js). I actively build web applications, engage in self-led tech projects, and enjoy combining analytical thinking from my science background with real-world coding solutions.
